

Name Masking Policy and Request Form

It is the policy of The Warren Group to make a reasonable effort to protect the identity of individuals who may be at risk (government employees such as police officers and prison guards) or for legal or safety reasons (such as restraining orders and abuse cases), while keeping public record information public. In this regard, The Warren Group will *attempt* to mask the name of the *buyer, owner or seller* of property in our database, if the individual provides written documentation specifying the nature of the risk associated with having his or her name in our database. We do not mask public information for any other reasons.

By signing and submitting this form, you are acknowledging the following:

- The Warren Group cannot guarantee that a name will be successfully masked, even if a written request is made.
- The Warren Group is not the only company that collects and distributes public record information from the various Registries of Deeds, Town Halls and other keepers of public records. Thus, your name may appear in a publication, or be made available to others, for reasons having nothing to do with the activity of The Warren Group.
- Your name may appear in public records, such as assessors' lists, which subsequently become part of our databases. While The Warren Group will make reasonable efforts to ensure that your name is masked, it cannot guarantee that this will occur.

Please complete the following, sign, and return to:

CustomerService@TheWarrenGroup.com or mail to our address below if enough lead time.

Please complete exactly *how it is recorded*:

BUYER / OWNER/SELLER
(circle one)
